EXPERIENCE

Forward Deployed Engineer

May 2026 – Present

Counter Labs | *Part-time*

New York, NY

- 5th Technical member, bootstrapped to 6-figure ARR
- Building ChefOS, the operating system for restaurants, which brings scheduling, inventory, ordering, reporting, and team workflows into one system
- Ingest POS, payroll, and supplier data via APIs and orchestrate multi-agent workflows on top
- Deploy custom AI agents to clients, including Madison Square Garden, currently piloting with 4-5 customers

Forward Deployed Engineer

Feb. 2026 – May 2026

Benmore Technologies | *Full-time*

Chicago, IL

- Managed a \$270K+ project portfolio of 6-8 clients, bootstrapped to \$2M ARR with a team of 7 FDEs
- Worked directly with startups and SMBs to translate business needs into products using Django, Next.js, AI agents, deployed on AWS and Vercel
- Accelerated development using Claude Code and multi-agentic orchestration workflows
- Industries included PE (M&A), Voice Agents in Healthcare, Home Services, Legal AI
- Deployed production software for teams of ~10–100 people

Software Engineer Intern

June 2025 – Aug. 2025

Alervio Inc. | *Pre-seed, team of 6*

New Jersey

- Led the full-stack deployment of a B2C and B2B nutrition platform, shipped LLM features on FastAPI with vector search, and onboarded restaurant partners including The Melting Pot

IT Operations

Mar. 2024 – Oct. 2024

The Pennsylvania State University | *Part-time*

Pennsylvania

- Ran the hardware support, ticket queue & account administration for 5000+ campus staff and students – triage, escalation, and closing the loop through phone calls and in-person meetings

Product

May 2023 – Aug. 2023

Zolve | *Freelance, Consumer Fintech*

New York, NY

- Worked on the card-issuing product team, iterating feedback loops directly with customers

PROJECTS

Analogue | *AI Back Office for Luxury Travel* | *Next.js, Supabase, Claude*

- Agentic back office for a non-technical operator: agents draft client replies, surface stalled threads and hold deadlines, and parse messy supplier emails– the human keeps the send button

Cursor2Discord | *Cursor Extension & Claude Code Plugin* | *TypeScript, Discord RPC*

- Shipped a Discord Rich Presence extension (1.2k+ downloads) that infers Cursor AI activity from edit shape and surfaces live Claude Code tool, file, model and token state via plugin hooks

aSpot | *YC Hackathon* | *Next.js, Supabase, OpenAI, Tavily, Zod*

- Built a 6-stage multi-agent travel itinerary pipeline (intent → retrieval → ranking → planning → critique → persistence) with parallel Tavily grounding, and an intent-keyed cache to cut retrieval cost

LeaseIQ | *YC Hackathon* | *Typescript, MongoDB, Firecrawl, OpenRouter, Reducto*

- Built an ingestion pipeline scraping 13+ rental sites every 15 minutes via Firecrawl, normalizing 100+ listings per run, layered with Reducto PDF parsing into LLM extraction of lease terms and risk flags

EDUCATION

The Pennsylvania State University

Pennsylvania

Bachelor of Science in Computer Science

Jan. 2022 – Dec 2025

- *Outstanding Senior Award* | *Global Entrepreneur Scholar*
